Cat Net Inspection and Follow-up Record

Describe visible changes. Keep the product instructions and photographs with this record.

Record unknown or inaccessible areas. This is an observation record, not a pass certificate.

Site / room / opening or panel ID

Record reference

Product / order reference (or identity unknown)

Earlier photograph / handover / instructions reference

Observation date / person

Reason for check / relevant event

Cleaning method or product used, if applicable

LOCATION KEY - view from indoors; add labels for other shapes

T / R / B / L = top / right / bottom / left. C1-C4 = corners clockwise from top left.
M = mesh field. O = moving window, door or access detail, if present.

Zone / photo reference	Visible finding / change / not visible or not checked	Temporary access restriction / by whom	Contact / action requested

Response / work completed / by whom

Follow-up date or event / person / observation

Unresolved items / further advice needed

If a gap, damage or an uncertain fixing is found, keep cats away from the affected opening while arranging advice. Completing this record does not approve repair or return to use.
